### Waganakising Odawa Career and Technical Education Program

*Offering Career-based  
and Technical Education  
Opportunities  
In partnership with*

# Why WOCTEP?

What are the benefits of being a **WOCTEP** student?

- ◆ **Certification programs are open to any student**
- ◆ Culturally diverse curriculum
- ◆ Academic liaison to help guide students through the program
- ◆ Friendly, committed staff
- ◆ Need-based hourly stipend and childcare and transportation assistance available to eligible participating students

***Interested in becoming a WOCTEP Student?***

## **CONTACT US!**

*This program is funded by the US Department of Education's NACTEP Grant*

# Phlebotomy Program

**Phlebotomy technician training includes blood draw techniques and related procedures, specimen transport and processing and infection control.**

**This certificate program includes classroom and skills laboratory experiences, followed by a clinical externship. Graduates will be prepared to work in free standing laboratories, clinics, home care areas, physician offices and hospitals.**

# Program Highlights

Phlebotomy technician training certificate program takes students through courses like *Phlebotomy Basics* and *Medical Terminology*

Students will also gain valuable knowledge in communication skills as well as a *Human Biology Course with a Lab*.

For more information, please contact us!

*This certificate is offered through North Central Michigan College in partnership with the Waganakising Odawa Career and Technical Education Program.*
