- Spiritual Support Services
- Substance Abuse Education

There is a new program to increase your chances of success in recovery from substance abuse addictions. Even if you struggled for years, there is new hope for recovery. Maybe you think some counseling would help you. Perhaps working with a traditional healer would be most helpful. Or maybe you think a sweat lodge would make a difference in your case. All these choices and more are yours to make.

You decide on the services you want.
You choose the provider(s) you want.
You decide what is best for you.

Who is Eligible?

The primary target populations are enrolled members of the twelve collaborating tribes and members of other tribes residing in the service areas designated by the collaborating tribes. Non-native family members are also eligible for services.

We encourage Native American Veterans and Armed Service personnel to apply.
